No advertising cut, one square inch or smaller, will be accepted unless mad-of metal. No wood base cuts this size will be used. Wood cuts are dangerous to forms and press.

Entered at the postoffice in Tonopan as second-class matter

SENATOR GEORGE T. MILLS is chairman, or was chairman, of the fish commission of Nevada. It was his prerogative to call the commission to gether for the transaction of business. Of course, the other members, a majority of the commission, had an equal right, to be exercised in an emergency, but only in such an emergency as the refusal of the chairman to do so at their request, or his incapacity by reason of absence from the state, illness, etc. The governor is only ex-officio a member of this and other boards. Mr. Mills' refusal to sublet his tenancy of office called for his resignation, rather his removal, for it amounted to one and the same thing.

Senator Mills has been the most active and efficient of all the fish com missioners that have served the state,

George Mills, chairman of the fish commission of Nevada, is a Republican. as is also Bertram Nixon, the third member of the board. Evidently the governor is working the "inefficiency" stunt which is being adopted by the federal government where civil service prevails. Just give governor Boyle and his machine henchmen plenty of rope and they will hang themselves before th next general election.

TUNGSTEN IN NEVADA

OLORADO papers just at hand are boasting of the great tungsten boom in Boulder county, says the Gazette. The Colorado papers are doing just right, too. They are telling all about the opportunities for the men who seek the metal, once discarded but now in such great demand as to make a ton of it as valuable as a ton of the highest grade of gold ore. One paper recently published a whole page of news from Boulder county districts, with maps and views of the town of Nederland, which, like the munition factory towns of the east, has sprung into life over night.

Now, Nevada has, acre for acre, and ton for ton, just as much tungsten as is possessed by Colorado. It is as easy for the prospector to find tungsten in Nevada as in Colorado, and in fact he will be likely to endure fewer hardships in his search, for the climate of Nevada is far milder than that of the Rocky Mountain state. In Mineral county there are acres of tungsten awaiting the man who knows how to find them. In northern Washoe county the same chance awaits the wide-awake man. Heaven knows what vast tracts there are of the ores whence tungsten is obtained that are to be found in those treasuries of riches, Elko and Humboldt counties while it is actually known that the ore exists in Nye and Esmeralda, and already White Pine county's wolframite and sheelite discoveries have started a boom there. Let's all tell about what Nevada has and get some more of the prosperity that tungsten has brought to Colorado.

THE JAPS IN MEXICO

HE report that Japanese immigrants have been forcibly prevented from landing at one of the ports of Mexico is rather disquieting, because, if the story is true, grave consequences are very possible. It appears that heretofore the mikado's subjects, if not actually welcomed to Mexico, have been permitted to enter that country at will. There is a large colony of them in Lower California and they have a foothold in other parts of the republic. Suddenly to refuse admission to a body of these people and to back up the refusal by armed force will doubtless cause much indignation in Tokio. And whatever one may think about the Japanese government, it must be conceded that it tries to protect the emperor's subjects in every land from discrimination as well as from downright oppression. When one recalls the trouble because San Francisco objected to the presence of Japanese young men in that city's public schools, it is not difficult to suppose that the action of the Mexican authorities at Ensenada may have grave consequences. And in that event the United States could hardly be an unconcerned spectator.

PUNISHING QUACKS

OCTOR" CLEMENT, the cancer quack, must spend a year in jail and pay a fine of \$500 for his heartless preying on the public. His sentence has been confirmed by the court of appeals.

It will be a salutary lesson to other unscrupulous men who may have the idea of making money in the same cruel fashion. Medical science knows no "cure" for cancer. The men who profess to cure the disease with medicines not only are cheating the patient, they are endangering his life by keeping him from undergoing the only treatment which may restore his health,

That treatment, generally speaking, is a surgical operation. In certain cases, the X-ray or radium treatment is preferable. A competent general practitioner can give the patient the proper advice. In its earlier stages cancer is curable by such treatment. It is never cured by medicine. The quack who holds out the hope of a cure by some medicine of his own devising is particularly contemptible and dangerous.

WATCH TONOPAH GROW

ONE of the banes of any mineral district, most to be dreaded, is it become ing a one-man camp. Such is not likely to ever be the fate of Tonopah As was stated in yesterday's Bonanza, the town has now twelve producers of ore, but that isn't all. If the signs are read aright there shortly will be at least fifteen. Little wonder that "brokers' row" is being extended and that TONOPAH the chirography of heavy men in the investment world is being recorded on the hotel registers.

What with loaded cigars, fake telephone calls, soap in the chocolates, the purse nailed down, the godknowswhat in the morning's morning and the merry ha ha heard on all sides, one feels like eliminating April 1st from the next year's calendar, if such an elision be possible.

CLIPPED AND CREDITED

Cole Blease says that in the event of war he will be the first to go to the front. In that case we are resigned to war.—Philadelphia Inquirer. In a talk to Trinidad folks the Colonel said unruly nations should be

chastised, and he also has a few ideas of what should be done to unruly political parties. Pittsburgh Dispatch. In other words it appears that Admiral Von Tirpitz, like many another TONOPAM :: :: NEVADA

official, was simply "fired" as a matter of political expediency.—Birmangham Ledger. The suffragi to have presented to congress a petition 21 feet in length.

With paper at its present price, this appears to be the wilful waste that brings woeful want, -Albany Argus.

Philadelphia hotels say they lose \$200,000 yearly on "free bread and butter." First time we have suspected that the hotel gave "free bread and butter.-Philadelphia Inquirer.

When the Progressive machine announces that it will support Theodore Roosevelt or "his equal" only, why doesn't it pause long enough to point out where his equal is to be found?-Rochester Democrat.

Understand that after a man's whiskers had been shaved off it was discovered that he was crazy. Wonder what piercing through Carranza's hir-sute disguise would reveal?—Philadelphia Inquirer.

FOR A KNOCKOUT NEXT NOVEMBER.

THREE MOUNTAIN LIONS ARE CAUGHT IN TRAP

Henry Yelland, the lion slayer of Taft, in Spring Valley, has again scored by trapping three mountain lions younger animals being apparently not quite two years old and measured eight feet in length. The big one had all of its front teeth kicked out, presumably by a horse sometime in its raids years ago. - Ely Record.
